THE ART CLUB

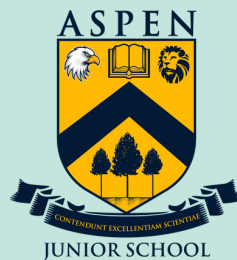

TERM 2, 2024

About us

Art club is special place where we get to explore our creativity, try new things and make amazing art together. Don't worry if you think you're not 'good' at art – this is a judgment free zone where we celebrate imagination and self-expression. So, let's get messy, have fun and make some masterpieces!

Making art is a great way for children to develop fine motor skills since they will be strengthening their hand muscles by grabbing paint brushes, crayons, markers or even scissors.

Art encourages visual analysis, improves hand eye co-ordination and also helps children establish concentration.
